Office of Inspector General

File No.: 010.13424.A07146.010

Subject: 2010 COMMAND PROPERTY INSPECTION REPORT

State Administrative Manual (SAM) Section 8652 requires departments to conduct a physical count of all state owned property and reconcile the count with accounting records at least once every three years. Departmental records indicate the last command inventory by the Willows Area was conducted on March 3, 2010. In order to provide independent verification and reasonable assurance to the Office of the Commissioner that departmental inventory records are complete and accurate, your command was selected for a property inspection.

In accordance with procedures outlined in Highway Patrol Manual (HPM) 11.2, Materials Management Manual, and HPM 22.1, Command Inspections Program Manual, an inspection of your command's property, including vehicles and weapons, was completed by the Property Inspector (PI) on June 14, 2010 and June 17, 2010. Using property records from the appropriate Offices of Primary Interest (OPI), the PI selected a random statistically-valid sample of property that was stratified across four property areas: general inventory control, telecommunications, fleet, and weapons (see Attachments B, C, D, and E). Additionally, the PI chose items within your command and compared them to the appropriate inventory records.

According to the OPI inventory lists, the command had a total property inventory population of 352 items (a). The statistically-valid sample at a 95 percent confidence level  $\pm$  5 percent error rate provided a total stratified sample size of 55 items when rounded up to the next whole number (d).

*Safety, Service, and Security*

	Population Size	Percentage of Total	Calculated Sample Size	Predetermined List Sample Size
	(a)	(b)	(c)	(d)
<b>ICU Decals</b>	146	41.48%	21.98	22
<b>Telecommunications</b>	129	36.65%	19.42	20
<b>Fleet</b>	16	4.55%	2.41	3
<b>Weapons</b>	61	17.33%	9.18	10
<b>Total</b>	352			55

When comparing equipment recorded on the predetermined property inspection list to equipment located at the command, 54 of the 55 items were located. One item was transferred to another command and three of the 54 items requires a correction be made to the property record. Also, four of the 54 items were located off-site and photographs were provided to the PI for verification. The property inspection results of the equipment recorded on the predetermined property inventory list to equipment located at the command are summarized in Attachment A.

When comparing equipment assigned to the command to the OPI inventory lists, 61 of the 79 items reconciled. Eleven items requires a correction be made to the property record and seven items were listed on other command's property inventory records. The property inspection results of the equipment recorded on the predetermined property inventory list to equipment located at the command are summarized in Attachment A.

I request your command research and investigate the discrepancies in accordance with departmental procedures outlined in HPM 11.2, Materials Management Manual, Chapter 8, Equipment, and work with the appropriate OPI(s) to rectify any variances. A Physical Inventory Adjustment Request, CHP 24, must be completed to adjust the inventory records. In order to verify the above listed discrepancies have been rectified, please submit a memorandum to the Office of Inspector General by October 14, 2010.

In accordance with the Governor's Executive Order S-20-09 to increase government transparency, this report will be posted on the California Highway Patrol's internet website, and on the Office of the Governor's webpage, located on the State's Government website.
